

LNA's are vital members of health care teams at:

- Hospitals
- Nursing Homes
- Home Health Care
- Personal Attendent
- Schools
- Long Term Care Facilities
- Memory Care Facilities
- Drs. Offices
- Hospice Care
- Private Care

Adult and Continuing Education **LNA Program** Licensed Nursing Assistant Evening Program

14 week course
preparing students for LNA licensure

February 10 - May 30

ABOUT THE PROGRAM

Burlington Technical Center's LNA program strives to provide students with the opportunity to enter into a career in the medical industry as a licensed nursing assistant (LNA). Students will be provided with a learning environment that challenges them to understand and master all policies, procedures and practices associated with providing high quality care to patients and support of nurses and other medical personnel. We seek to instill a strong sense of compassion for quality patient care in our students and a desire to continue to grow and advance in their career in the medical industry starting first with successful completion of this program and mastery of the State of Vermont Licensed Nursing Assistant Exam.

CREDENTIALS EARNED

Successfully completing the ACE-BTC LNA Program gives students the credentials to apply for LNA Licensure with the State of Vermont.

WHAT TO EXPECT

Students will actively participate in the learning process through coursework, hands on training, clinical placements and testing support. Student will complete their coursework at BTC and their clinical placement at Birchwood Terrace under the supervision of the LNA instructor.

PROGRAM COST

LNA Program students are eligible for VSAC Adult Education Grants to cover the cost of the program. Please contact us with interest and questions.
