ABOUT THE PROGRAM

Students in this program will learn fundamental aspects of manufacturing, engineering, and design processes through both academic and hands-on work. A number of projects will be completed throughout the year which are specifically designed to build the student's ability to conceptualize a product, design that product, make that product, and, subsequently, evaluate the process. Throughout the year, students will progressively increase knowledge in four target areas:

- Precision measurement (English and Metric)
- Communication (presentation, mechanical drawing, and 3D design using SolidWorks)
- Fabrication (sheet metal, welding, machining, 3D printing)
- Data analysis (MS Excel or equivalent)

CREDENTIALS, CERTIFICATES, WORK-BASED LEARNING AND LEADERSHIP OPPORTUNITIES

Students will have opportunities to earn certifications in areas such as safety, 3D design, and welding. Students also have the option of participating in annual SkillsUSA competitions. College credits available include: VTC: Intro to Mechanical Technologies (1 Credit), Design Communication I (2 Credits), and Manufacturing Processes I (2 Credits).

PROGRAM OUTCOMES

Students that complete this program will have the skills necessary to successfully enter the workforce or go on to a rigorous college program.
